

500+ Ways To Make Money Online

Dave Schneider

135 Flares

For the last two years I have been earning my money entirely online. Yes, making money online has a bit of a scammy sound to it but for many people it is a reality, and I am not exaggerating when I say there are regular people earning 5+ figure a month salaries completely through their online endeavors.

However, for every one of those there are probably hundreds of people who are not earning a dime online despite trying to. And yet there is something very sweet about earning that first dime online.

It's motivation to pursue it further. I remember the first few dollars Vicky and I earned through her food blog by putting up a few adsense ads.

It wasn't much, but it was the start of us earning a few hundred dollars, then a few thousand, and now over ten thousand dollars every month. In this post we are going to explore the many ways that people are earning money online.

I have scoured the web looking for the best posts about making money online as well as doing my own research to find individual websites/companies, so that I could compile what is no doubt the most comprehensive list to date of ways to make money online. Please enjoy this list **and PLEASE SHARE** so that others may benefit from this research.

Not only have I spent many hours putting this together, but by using assistants to help with research and formatting, spent money. But it's worth it to bring you what I consider to be valuable content!

In fact, if you would like to share it right now, you can do so and download a PDF at the same time – trust me, you won't regret it!

PROLOGUE: DISCLAIMER

I have not tried all of these websites. In fact I have not even tried the majority of them.

That would be lunacy. I cannot defend each individual company.

Many of them offer the same thing. What I can say is that they have been listed in reputable sources and that I have visited each website individually to verify that at the time of writing it was working and appeared legitimate.

You may not find everything to be an option for you. Some things are selective in that they require you to have an established website with a certain amount of traffic, or to live in a certain part of the world. In some cases I have used affiliate links.

This means if you sign up I receive a commission. This does not affect you in any way (neither negatively nor positively), but I would appreciate it if you consider using my affiliate links as a means of supporting this blog and the way that I earn my income online.

The vast majority of these links (98%+) are not affiliate. Lastly, please do not expect to turn this list into a 5 figure a month income, at least right off the bat.

Though it is true that many people are using the below websites to do just that, it is often the result of a lot of hard work and time spent building websites, an audience, etc. This is not a get rich quick scheme.

It took me nearly a year before I was earning a few thousand dollars a month online, and I actually consider that rather quick. Before diving into anything I highly recommend that you do a quick search along the lines of “review of company X” to see the results of people who have tried these strategies in depth.

Also check the sources at the end as they may provide more in depth reports on specific websites. Don't confuse an attractive website with legitimacy.

Moreover, **be suspicious of any site that requires you to pay to join.**

CHAPTER 1: WRITING

In this section we highlight ways you can make money from writing. In my experience, if there is one skill that trumps all others in effectively earning money online it is the ability to write.

No other skill has the versatility that writing has. Good writers are sorely underrepresented. If you can write, you can earn money online (with or without a blog) – guaranteed!

1.1 Blogging

The act of blogging in and of itself is often free, but that doesn't mean that blogging can't serve as a useful platform from which you can earn money online. Many people are earning over 5 figures a month “just blogging”, by combining it with things like affiliate sales, ad networks, and paid reviews.

Go to the last chapter of this post to see all of the blogger income reports I have collected. There are thousands of blogs started everyday and most of them die off over the course of a few months/years.

From personal experience I think it is best to start a blog with a purpose/passion – aside from making money. This will help you to be successful in the long run, as it is normal to spend many months blogging without earning anything. Here are some of the best blogging sites you can use to get started:

[How To Start A Blog](#) - a post I wrote that will get you up and blogging in a matter of minutes.

Blog.com - Creates a free blog and hosts it for you for free. Your domain will look like yourdomain.blog.com.

Blogger.com - Free weblog publishing tool from Google, for sharing text, photos and video. Quick and easy to setup and links with your Gmail account.

Livejournal - A service for journals and blogs, that also offers privacy controls, photo storage, publishing tools, style templates, and online communities for many interests.

Tumblr - Post anything (from anywhere!), customize everything, and find and follow what you love.

WordPress.com - Free blogs managed by the developers of the WordPress software. Includes custom design templates, integrated statistics, automatic spam protection . Your domain will look like yourdomain.wordpress.com It's different from Word Press.org.

WordPress.org - A web software you can use to create a beautiful website or blog, with your own domain name.

1.2 Blog/Website Monetization

If you have a blog or a website with content and a following, I'm going to discuss a few ways you can monetize it through advertising and information products. Concerning the latter, you certainly don't need a blog to pull it off.

Anyone can sell an ebook, for example. But it is just so typical for bloggers to do these things, because they tend to be more successful when you have an audience, that I decided to include them in this section.

Still, if you don't have a blog, you just need to think of another way to reach your target audience (like a forum, or a simple landing page).

1.2.1 Contextual Links and Sponsored Posts

If you have a blog there are many ways you can monetize the writing portion of it, such as reviews, sponsored posts, and more. This is actually how I started earning serious money online.

Often, companies will pay you to link to them on your blog because they want the increased exposure as well as the "link juice" that they get from an inbound link to their website. Be careful with this one because in some instances it can violate Google's TOS, which, in the most extreme circumstances, can result in your website being removed from the search engines.

Blogitive – Get paid weekly via PayPal for posting stories that interest you.

Blogsvertise – Make money from advertising and generate ad income from your blog.

BlogToProfit – Make \$250 dollars or more by writing new posts on your blog.

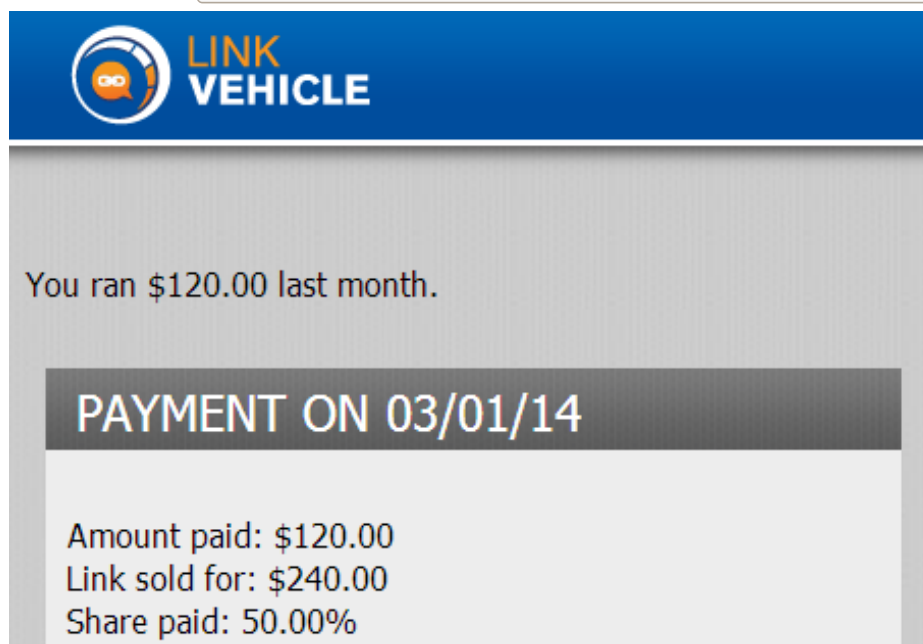

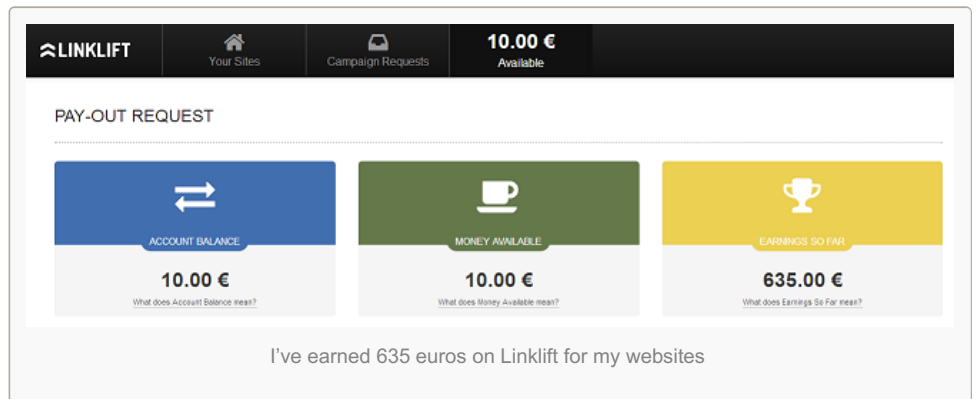

Creative Weblogging – Write 7 to 10 posts per week for their network and they will pay you \$225 per month.

Digital Journal - A digital media news network with thousands of Digital Journalists in 200 countries around the world.

Expo TV - Consumer generated video, social media and peer to peer recommendations enable influential consumers to share their authentic reviews and opinions.

LinkLift - An international online marketing service provider based in Berlin. I have personally used [Linklift](#) and profited hundreds of dollars from doing so.

LinkVehicle – Easy system to sell blog posts.

LinkWorth - Easy text link ads for advertisers and webmasters to boost link popularity.

LoudLaunch – Blog about the advertiser’s campaign releases that meet your interests. They pay once a month.

Social Spark - A blog marketing site that connects advertisers with bloggers for sponsored blog posts.

Pay Per Post- Get paid as much as \$500 or more a month, writing articles and reviews of their sponsors on your blog.

PostJoint - PostJoint enables content marketers and publishers to swiftly arrange deals on their own terms. Marketers can quickly distribute their content and publishers can easily grow and monetize their sites.

Review Me - After your blog has been accepted in their network, they will pay you \$20 to \$200 per post that you write to review products/advertisers.

Smorty – Smorty is a community site that helps bloggers generate a better income, and it could be defined as a network devoted to blog advertising. The site is split into two main sections. Earn \$6 to \$100 dollars per post you write on your blog, depending on the overall popularity and page rank of your blog.

SponsoredReviews - A blog post service that connects advertisers with bloggers willing to write paid posts about their services and products. They charge a 35% transaction fee for their services.

Teliad - SEO company for international backlinks & blogs. I have personally used **Teliad** and made nearly \$1k doing so. They pay monthly.

1.2.2 eBooks

It seems that just about every popular blogger has their own ebook(s) these days. Part of the reason is that there are just so few barriers to entry – if you want to write a book and self publish, go ahead! It can be a “passive” income stream for life (though that should not be confused with the fact that it can be a lot of upfront work).

bookbaby.com – Sell more eBooks with a professionally designed cover. The industry’s best *place* for valuable tips on how to promote and sell your book.

flickrocket.com – Set up your ebook own shop.

kindle.amazon.com – The Amazon Kindle is a series of e-book readers designed and marketed by Amazon.com. Amazon Kindle devices enable users to shop for, download and sell.

payhip.com – Upload *e-books* and sell directly on Twitter, Facebook or your website. *Sell* your *ebooks* to your fans and followers and get paid instantly via PayPal.

secure-ebook.com – A website with an integrated Blog engine that will help you sell more *eBooks*; The renowned *Secure-eBook* fully automated purchase process.

1.2.3 Podcasting

Podcasting is all the rage lately and it is becoming the new, preferred form over content to connect with your audience. In addition, it can also be a lucrative form of income if you draw in enough of an audience.

The screenshot shows the SocialSpark dashboard with a 'dashb' label in the top right. Below the logo, there are two tabs: 'Points Earned' and 'Funds Cashed Out'. The 'Funds Cashed Out' tab is active, displaying a 'Transaction History' table. The table has columns for date, notes, category, status, and amount. Two transactions are listed, both for 'Funds transferred to PayPal account' with a status of 'Closed'. The first transaction is dated 07/26/2013 for \$130.00, and the second is dated 03/31/2013 for \$200.00. Below the table, it states '\$330 earned on social spark'.

date	notes	category	status	amount
07/26/2013	Funds transferred to PayPal account	PayPal Cash Out	Closed	\$130.00
03/31/2013	Funds transferred to PayPal account	PayPal Cash Out	Closed	\$200.00

\$330 earned on [social spark](#)

The screenshot shows the PostJoint account dashboard. At the top, there are navigation links for 'Dashboard', 'Opportunities', 'Offers', 'Account', and 'Support'. The main heading is 'Your Account' with a sub-header 'Hey Dave! (100% | 4) 6 New Messages | 47 Credits'. Below this is a menu with 'Overview', 'Blogs', 'Feedback', 'Publishing Credits', 'Earn Free Credits', and 'Close Account'. The dashboard features four large cards: '47 Publishing Credits', '132 Total Offers Made', '30 Total Published Posts', and '\$1653 Total Earnings'. At the bottom, it says 'I've earned \$1653 on PostJoint'.

The screenshot shows a 'CREDIT NOTES' section with a 'Preview of your next credit note on 02/28/2014' and a 'display >>' button. Below is a table with columns for date, amount, and various status indicators (TL, PL, BP, PP). The table shows four entries with amounts ranging from 96.89 to 129.72 US\$. At the bottom, it states 'Every month I receive ~\$130 from Teliad'.

date	amount	TL	PL	BP	PP
01/31/2014	129.72 US\$	TL	PL	BP 14	PP
12/31/2013	129.72 US\$	TL	PL	BP 14	PP
11/30/2013	96.89 US\$	TL	PL	BP 10	PP
10/31/2013	171.89 US\$	TL	PL	BP 8	PP

Every month I receive ~\$130 from Teliad

Consider Entrepreneur On Fire, a podcasting series/blog, which makes over \$40k per month on direct advertising through their podcasting. Here are some popular business podcasts:

- [ENTREPRENEUR ON FIRE – John Lee Dumas](#)
- [SIX PIXELS OF SEPARATION – Mitch Joel](#)
- [MARKETING OVER COFFEE – Chris Penn and John Wall](#)
- [MARKETING SMARTS – Kerry O’Shea Gorgone of marketingprofs](#)
- [THE ENTREPRENEUR’S RADIO SHOW – Travis Jenkins](#)
- [SOCIAL TRIGGERS INSIDER – Derek Halpern](#)
- [EBOOK NINJAS – Joshua Tallent, Toby Stevenson, Chris Casey](#)
- [INSIDE PR – Gini Detrich, Joseph Thornley and Martin Waxman](#)
- [350 THIRD – Anders Brownworth, Scott Barstow](#)
- [EVENTUAL MILLIONAIRE – Jaime Tardy](#)
- [YOUR GRAND IDEA – Todd Skaggs and Kevin Carter](#)
- [THE SOLOMO SHOW – Cory O’Brien & Adam Helweh](#)
- [THE FRIDAY FIVE – Tom Webster](#)
- [THE WORK TALK SHOW – DJ Waldow and Nick Westergaard](#)
- [INSPIRING WORDS OF ENCOURAGEMENT - Zig Ziglar](#)
- [ONLINE MARKETING MADE EASY – Amy Porterfield](#)
- [THE FIZZLE SHOW – Corbett Barr, Chase Reeve & Caleb Wojcik](#)
- [THE START UP SHOW – Seth Godin](#)
- [PODCAST ANSWER MAN – Cliff Ravenscraft](#)
- [THIS IS YOUR LIFE – Michael Hyatt](#)
- [SMART PASSIVE INCOME – Pat Flynn](#)
- [A&B GROUP THERAPY \(Music Podcast\)](#)

1.2.4 Online Courses

I ran my first online course last year and made over \$2500 doing so. I also made a bunch of contacts from talented individuals who took the class.

Again it requires a lot of upfront work but the ongoing work can be significantly less by comparison. There are many platforms that are built for you to specifically offer courses.

Or you can simply create your own on your website through a series of emails.

All of these are essentially free platforms for creating online courses:

- [Claroline](#)
- [Coursecraft](#)
- [Coursesites](#)
- [Learnotopia](#)
- [Moodle](#)
- [Pathwright](#)
- [Peer 2 Peer University](#)

- [Rcampus](#)
- [Udemy](#)

1.2.5 Membership Site

Although this has been around forever I've particularly started noticing it quite recently and I **LOVE** IT. At least as a business model.

The idea is basically to create a community of like-minded individuals and give them access to each other as well as instruction to help them achieve their mutual goals.

The math on these is quite astounding, as you generally see people charge between \$20-\$100/month. That means for each sign up they are getting a monthly recurring income of \$20-\$100. So, if you can get a few hundred sign ups leveraging your audience, well, do the math.

A few of the ones I am aware of (though there are many, that's for sure) are:

[Entrepreneur On Fire's Podcasting Paradise](#) – A community for podcasters from John Dumas.

[Sean Ogle's Enter China](#) - Creating a community for people who want to do business in China.

[Tom Ewer Freelance Writing](#) – Community for Freelance Writers (coming soon).

[Tropical MBA's Dynamite Circle](#) – An invite only community for entrepreneurs. I currently belong to this one.

[Tung Tran Cloud Living Membership](#) - Community For niche website builders.

1.2.6 PPC (Pay Per Click) Marketing

Most people have heard of adsense, which is Google's advertising network. In reality, this is only one of over a hundred different ad networks.

These ads work off a variety of models whereby your pay is relative to the exposure the ad gets. What is actually required (a view, a click, a sign up) varies.

Ads come in a variety of forms, such as banners (of all different sizes), links, videos, and more. Pay per click marketing means that you get paid every time the ad gets clicked.

It is one of the most common forms of ad networks because, unlike a view, the advertiser has greater confidence that the user has purposefully interacted with the ad in some way.

[Chitika](#) - Develops real-time, scalable, on-demand contextual targeting services to help online businesses leverage their two biggest assets: content and online. Similar to AdSense.

[Clicksor](#) - Clicksor offers webmasters the opportunity to earn additional income by using a selection of clickable text or targeted contextual banners on their websites or blogs. Payouts are made by PayPal with a minimum payout of \$20.

[CrispAds](#) – Access to over six thousand advertisers in their pay-per-click program. Decide which advertisers suit you best.

[Feedburner](#) – FeedBurner is a web feed management provider launched in 2004. You can implement AdSense earnings to your feeds also through Feedburner/Google.

[Google AdSense](#) – Google AdSense provides a free, flexible way to earn money from your websites, mobile sites, and site search results with relevant and engaging ads. It is the leading advertising network in the internet to make money and usually offers the highest rates to their publishers through PPC (pay per click), CPM (cost per impression). Payment is done by check or direct deposit with a minimum payout of \$100.

Infolinks – Infolinks leads the online advertising industry by driving new revenue opportunities for publishers while overcoming banner blindness for advertisers. Payment method PayPal, or check, minimum payouts are \$50.

Media.net - Bing Network Contextual Ads program enables web publishers to easily and effectively earn advertising revenue.

Speedy Ads – Pay Per Click advertising

1.2.7 PPV (Pay-Per-View) Advertising

Pay per view advertising is similar to pay per click, except you can replace click with view. Your pay is largely based on the traffic you bring to the ad.

In general, ppv rates are lower than ppc because less is required of the user. For example, while 1000 people might see an ad, it is possible that only 5 (or less) will click it.

AdBrite – Approve or reject any ads purchased for your sites. You can also sell ads direct with “Your Ad Here” links.

AdKnowledge – Adknowledge is a digital advertising marketplace that efficiently gets results for your message wherever your audience happens to be: desktop, laptop, tablet or.

AdOn Network - Pay Per Click Advertising management from AdOn Network. Pop under ads and Pay Per Click advertising text ads.

Adsella – Buy and sell ad space.

Advertise - The advertising marketplace for buying and selling online and offline media. Buy or Sell print, online, outdoor, ambient, event and many more advertising.

BlogAds - Blogads is an online ad network that provides advertising services to both bloggers and advertisers. Average blogger makes anywhere from \$50 to \$5000 dollars a month selling blog ads.

Blog Her - PPV advertising network that you can apply to if you have a blog.

BuySellAds - BuySellAds.com is an online advertising network in which you can earn money by selling your ad space with your own rates. I have used this before to get monthly ads for our food blog AvocadoPesto.com.

Direct CPV- Give your online marketing campaign the jolt it needs with DirectCPV's pay per view advertising solution.

DoubleClick - DoubleClick is the ad technology foundation to create, transact, and manage digital advertising for the world's buyers, creators and sellers.

IndustryBrains – Provides unique advertising and monetization services, for both advertisers and publishers by placing relevant contextual text listings and graphical ads on your site.

ValueClick media -Displaying ads through banners, pop-up ads and rich media.

Vibrant Media – In-text contextual based advertisements.

Yes Advertising – Run ads from their sponsors as well as a referral program that pays 20% of the referred webmasters earnings.

1.2.8 Private Blog Networks

Again, debatable as to whether or not this belongs in blogging but it is bloggers from whom I am seeing these services and therefore included it in this section. I have also started to see this now more than ever, and it is individuals renting out their private blog networks for links.

Some SEOs are saying that one of the best ways to achieve rankings in the SERPS is through private blog networks, as they are very powerful and direct.

Here are a few private blog network services:

Authority Website Income - Private Blog Network service by Jon.

CloudIncome's Rank Source – Private Blog Network run by Lewis Ogden.

God of SEO's PBN - Private Blog Network run by Charles Floate.

ScrewThe9To5 PBN - Private Blog Network run by Josh and Jill.

1.3 Revenue Sharing

If you don't have a blog of your own, there are plenty of other platforms that you can write for. Many websites operate as large, content networks that allow people to write for them.

In exchange, they will put ads in your writing and give you a revenue share of what your articles make. The benefit here is that they receive a lot of traffic, so receiving 75% commission on the ad revenue that these sites produce might be better than 100% on your own blog if it doesn't receive much traffic.

The downside is that you are building up another person's website instead of building something for yourself.

451 Press - Write about various subject. Receive forty percent of all generated revenue.

About.com - A valuable resource for content that helps people to solve the large and small needs of everyday life. Become a paid guide writing articles for About.com.

up to \$100+ per article.

HubPages - Online space to share your advice, reviews, useful tips, opinions and insights with hundreds of other authors. **HubPages** is completely free and offers an AdSense share of 60%

InfoBarrel - InfoBarrel is a social writing platform where writers from around the world come together to create media content. Currently, the revenue share model is based upon three programs; Google AdSense, Chitika and Amazon Associates. 75% of the time the publishers affiliate codes will be displayed and the other 25% the InfoBarrel codes are displayed. AdSense revenue share ranges from 75% to 90%.

Postloop: Make money by sharing informative articles and forum posts.

Rate It All – RateItAll is a consumer-review website that also incorporates social networking. Consumers review products and services, share information, and get paid for their reviews. 50% AdSense revenue share.

1.4 Freelance Writing

Say you don't have a blog, and don't want to join in an ad revenue sharing agreement, you can get paid a flat rate to write articles. Personally I have hired nearly a dozen writers to write articles for me and paid thousands of dollars to freelance writers.

There is definitely a huge demand for it although there is a lot of competition. I will not go into details on how best to become a freelance writer, as there are more experienced people to tell you that, however I do believe at least one aspect of it is building up a reputation.

Some of these sites can help you get start.

Associated Content – Submit your content and get paid relative to the views it gets.

Break Studios - Freelancing writing work.

Constant Content – Commission freelance content writers to create original content for your website. Find seo content writing and writers. Trade your blog posts and articles for cash.

Writers Domain – Looking for highly skilled and qualified writers to compose blogs on various topics.

CHAPTER 2: SELLING

If you have a product, there is probably a platform through which you can sell it. If you don't have a product, there are many products that other people have that you can sell for a commission (known as affiliate marketing). Either way, don't discount your assets as a viable means to make a sale.

2.1 Affiliate Marketing

While the concept of selling a product that is not yours might seem strange at first it is actually quite common. Many companies will allow this because it allows them to reach an audience that they otherwise would not.

It is like hiring a bunch of sales representatives on commission. Here are some affiliate marketing programs that combine lots of different affiliate offers.

In addition, if you have a product or website in mind you can simply search "website affiliate program" and if it has one chances are it will come up.

AdPlosion – Earn revenue by selling leads, clicks and products from their advertisers. Also runs an incentive points program in addition to your commissions.

Affiliate Future – [AffiliateFuture](#) are performance-based marketing specialists, providing sales solutions and marketing services to advertisers, publishers and agencies. Pays you for generating leads, sales and clicks.

Amazon Affiliate Program - One of the most popular affiliate networks due to the breadth of products you can market. Pays generally between 4-6%, higher payout for more sales. Best part is you get paid for whatever someone ends up buying after they click on your link, even if it's not the product that you advertised.

Avangate – Leading cloud commerce provider for online software businesses and cloud companies looking to grow their digital revenues. Sell popular computer software titles.

2.2 Selling Your Own Products

It should come as no surprise that if you own a product, you can sell it. What might be a surprise is just how many things you can sell.

For example, a few years back my mother started making seaglass jewelry. She started trying to sell her pieces on Ebay and Etsy and was experiencing success.

A few years later and she is consistently making over a grand a month on average. It is definitely possible to transition a hobby into a business, you just have to find the right marketplace.

2.2.1 Large Marketplaces

There are many large marketplaces from which you can sell a wide range of products.

license. Otherwise, you earn 50% of each sale.

2.2.6 Fully, Established Websites

If you own a website that is up and running, you can sell it on one of these market places. Really, a website is just like online real estate.

You own a plot of land in the World Wide Web. What you do with it can increase or decrease its asset value.

The more money it makes, the more valuable it is. I have seen websites sell for 6 figures many times. The beautiful part of it is that people generally pay between 10 and 20 times the monthly profit, so if you have a website that is bringing in a bit of cash you can potentially sell it for a pretty penny.

Here are some market places for buying and selling websites.

Buy Sell Website – Search hundreds of websites for sale. Buy or sell websites and domain names.

Deal Site - DealASite.com is free for both buyers and sellers to buy and sell websites.

EmpireFlippers - Empire Flippers has websites for sale, letting you buy websites and offer sites for sale online.

Flippa – Buy & sell websites, domains, and apps. I have personally bought on Flippa over a dozen times and in many cases it has been successful.

2.2.7 Domain Names

Yes, even if you just own a domain name you can sell it. In fact, some domain names have sold for tens of thousands of dollars due to their high demand/relevancy (think like websites.com).

Some people even make a business (albeit it an annoying one) out of “squatting”; buying up domains and trying to sell them later to interested parties. I heard once that someone, anticipating the growth of Starbucks, went and bought up starbucks.com in other countries (i.e starbucks.ru) and probably made a pretty penny doing so.

AfterMarket - Buy domain names, purchase registered domains, list domains for sale in a number of different ways, and sell domains safely and securely. Takes a 10% commission.

Afternic – Afternic is a one-stop site to buy domains, sell domains, and park domains. Takes 10% – 20% commission.

Bido – Domain sales. You will be notified when they respond. If an agreement is reached, you'll be instructed to make your payment. **Bido** will assist with the transaction and transfer. Takes an 8% commission.

SnapNames - Buy Domains even if they are already registered or sell domains names. Takes a 20% commission.

2.2.8 Collectibles

In this example we will explore baseball cards but you can replace this with any collectible and there is likely a specialty marketplace for it outside of ebay/craigslist. Remember, anything you own can be an asset if it has value to someone else!

707 Sportscards - One of the largest buyers and sellers of old baseball cards, PSA Graded Cards, and Allstate Display Cases.

Baseball Card Exchange – Baseball Card Exchange.

BaseballCardBuyer.com – Baseball card buyer with 30 years' experience is now buying vintage (pre-1970) sports cards at top prices.

2.2.9 Recycling Old Gadgets

If you have an old iphone, laptop, or any other hardware there are lots of sites where you can sell your old gadgets to. In many cases large retail stores like Best Buy and Sam's Club have exchange programs.

It's great exploring these options because you can see how much an asset is worth even if it is used. In this sense you can look at everything you purchase as coming at somewhat of a discount.

For example, if you buy a phone for \$100 but are savvy enough to know that you can trade it in for \$20 a few years later, it is like getting it for only \$80.

ASOS Marketplace - List items from your wardrobe. Takes a 5% commission when items sell.

Best Buy – Well known retailer who also buys second hand.

Buy My Tronics – Sell electronics like used cell phones, iPods, digital cameras and game consoles.

Costo – The online store for the national retailer of brand name products, from computers and clothing to gardening and gourmet food.

My Bone Yard – Helps people recycle their gadgets

O2 Recycle – Recycle your gadget for cash.

Preloved – Turn clutter into cash by selling on Preloved.

Sams Club – Exceptional wholesale club values on TVs, mattresses, business and office supplies etc.

2.2.10 Souls

OK, this is more of a lesson in getting creative. You have to think outside of the box.

What do you have rights to that someone might value enough to pay for? This might be extreme but I think it shows you the limits of just what you can sell online.

Demonical - Sell your soul for \$5 or auction it off to the highest bidder.

2.2.11 Your Designs

There are platforms out there that allow you to design a product (think t-shirts, mugs, books, etc) and sell it through their website. This allows you to bypass the upfront cost of having to create and store the product as well as leverage the existing audience the website has.

It is great especially if you want to test an idea and establish whether or not there exists a market.

2.2.12 Apps

Apps are all the rage. If you have any sort of programming ability coding up an app and selling it can be a source of income.

If you don't have coding experience, it does not mean that you cannot hire a developer and work with him or her to create your app. Apps often sell for very cheap, only a few dollars, but they appeal to a wide audience of millions of smart phone users.

appbackr - App developers around the world use their predictive analytical ranking system to get their appscore. Higher scoring apps have more opportunities.

CHAPTER 3: RENTING

Many people want things temporarily and therefore are not in the market to buy, but to rent. If you own space for example, you can rent it.

Many people rent out spare rooms, apartments, etc. I even know people who rent out their only apartment (and crash at their girlfriend's place if someone rents it).

CHAPTER 4: SOCIAL MEDIA

Social media is becoming more and more attractive to advertisers. If you have a large social following then there are people who are willing to pay you for a moment of your audience's time, and it's not JUST Facebook anymore.

There's stuff for all different kinds of social media platforms.

4.3 Pinterest

CHAPTER 5: FINANCE

Of course a lot of finance is conducted primarily online, however, one should approach this with an added degree of caution, since this is one of the few parts of this post where you can actually lose money by attempting it (the other being gambling to be discussed later).

5.1 Peer-to-Peer Lending

This is a relatively new concept where people fund loans for other people, essentially cutting out the bank. I've experimented with this a bit myself without much success, though I have seen reports from other trustworthy people who are showcasing 5%+ returns on their loans.

Community Lend – Similar to Lending Club, but for Canada residents.

Lending Club – (U.S. Residents Only) Peer to peer lending, which starts in increments \$25. I have used lending club myself and frankly have not seen exciting returns (currently around 2%) on account of a few defaults on several loans.

I also feel that in order to properly diversify (spread out over a bunch of different loans) it takes a fair amount of time to research the loans and find the right ones for your strategy.

Prosper – Operates slightly differently from Lending Club in that I believe you bid on loans.

5.2 Stock Trading

If you want to throw your hat into the ring and try day trading, there are many brokers out there.

Charles Schwab – I have a bank account with them that doubles as an investment account because they have no international fees for ATM withdrawals.

E*TRADE – Online discount stock brokerage service for self-directed investors.

Fidelity – Another broker I use.

Interactive Brokers – One of my personal brokers, only \$1 commissions on trades.

Scottrade – Offers a wide range of brokerage and banking services.

Sharebuilder – Buy stocks, mutual funds and ETFs with low commissions and no minimum required.

TD Ameritrade - Broker for online stock trading, long-term investing, and retirement planning.

Trade King - TradeKing is an online broker providing tools and research for online trading of stocks, options, bonds and more.

5.3 Switch Your Bank Account

Banks are always trying to offer incentives to get you to switch over to them. If you are willing to go through the hassle (which, nowadays is not so much of a hassle), you can be nicely rewarded. [Check out this article](#) on how you can earn between 100-200 pounds simply by switching banks.

5.4 Sign Up For A Credit Card

Similarly many credit cards have sign up bonuses that can be worth hundreds of dollars. Do read the fine print though as some of these require specific actions (like spending \$X in Y months).

Others have annual fees. Still I have easily received over \$1k in value simply by signing up at the right time and following through. Here are a few of the best ones right now.

[Best Rewards Credit Cards](#)

[Best Airline Credit Cards](#)

[Best Travel Credit Cards](#)

[Best Credit Card Sign Bonuses](#)

5.5 Check For A Lost Account

My Lost Account – If you're located in the UK and might have lost/forgotten about an account, why not check?

CHAPTER 6: GAMBLING

Since we just discussed finance we might as well discuss gambling. Yes, another one that you should be careful with, but I do know two friends of mine who have won thousands of dollars in online poker, and therefore it is worth mentioning.

In addition to poker there is also bingo, sports betting, casino games and more. Many sites will give additional monetary bonuses to first deposits allowing you to leverage your cash.

888 Poker - Play online poker at 888poker, voted best online poker room and most trusted poker site 2011-2012

William Hill - Online betting and gambling.

Titan Poker - Online poker site.

Party Poker - Online poker. Get your first deposit up to \$50 matched.

Bet Online - The world's leading name in online betting and real money gaming. Exciting live sports betting odds, online poker, games and casino.

The screenshot shows the LendingClub account summary for a user named David. The page includes navigation links for Account, Notes, Portfolios, Order History, Account Activity, and Bank Accounts. The main section is titled 'Account Summary' and has sub-links for Summary, Transfer, and Trade Notes. There are two sections, each with an 'ON' and 'OFF' toggle and a link to 'View/Customize Adjustments'. The first section shows a Net Annualized Return of 3.65%, an Account Value of \$2,016.88, and Interest Received of \$132.14. The second section shows an Adjusted Net Annualized Return of 1.94%, an Adjusted Account Value of \$1,993.76, and Interest Received of \$132.14. A note at the bottom states: 'I started with \$2k and it now shows \$2016 after 6+ months. But if you consider payments past due as future bad loans, I've actually lost money.'

Metric	Value
Net Annualized Return	3.65%
Account Value	\$2,016.88
Interest Received	\$132.14
Adjusted Net Annualized Return	1.94%
Adjusted Account Value	\$1,993.76
Adjusted Interest Received	\$132.14

CHAPTER 7: FREELANCING/ PAY-PER-PROJECT

Earlier I talked about Freelance Writing. In reality, writing is only one of the many skills that people can freelance.

For example, I have hired programmers, graphic designers, SEO consultants, writers and many more different kinds of freelancers off some of the sites mentioned here.

7.1 Gigs Websites

What would you do for \$5? On these websites you can offer a wide range of services as long as you only charge the specified amount. It does often allow you to try for an upsell.

Dollar3 - Dollar3.com has been acquired by GigsBull. A gig site with price point in multiples of \$3, starting at \$3.

Fittytown - The town where everything is \$50. If you thought there was a marketplace for \$5 (Fiverr.com) there is a marketplace for \$50.

Fiverr - The place for people to share things they're willing to do for \$5.

GigMe5 - Similar to Fiverr.com

Jobs for 10 - Gigs site \$10 price point.

Just a Five - Gigs site \$5 price point.

TenBux - Gigs site with \$5 or \$10 price point.

UpHype – Gigs site variable price points.

7.2 Large Freelancing Communities

There are just so many communities where freelancers can showcase their skills – this barely scratches the service. My personal favorites are eLance and oDesk.

Amazon Mechanical Turk – The online market place for work. Businesses and developers have access to an on-demand scalable workforce. Workers can work at home and complete simple tasks.

ClickChores - Here, you can find an army of workers for all your site's SEO, e-marketing, and social media needs.

Eance – Access over 2 million skilled freelancers from around the world. Find rated web developers, mobile programmers, designers, writers, translators, marketing pros.

I have used this myself a number of times (on the hiring end) and have been really impressed with the quality of proposals I receive.

PeoplePerHour – Standard freelancing site.

CHAPTER 8: NEWSLETTER MARKETING

CHAPTER 9: GIVING ADVICE

9.1 Reading Or Responding To Emails

This is exactly what it sounds like – get paid to read emails.

CHAPTER 10: CONSUMER RESEARCH

There are tons of companies that are interested in getting the opinion of customers for their business, product, website or service. Some of these may require you to appear in person.

In most cases though they are going to want you to test out their product and then provide feedback on it. In some instances you might even get to keep the product.

10.1 Product Testing

10.6 Mystery Shopping

Many businesses are interested in being “mystery shopped” which essentially means you are pretending to be a legitimate customer. I've done this before and it works great in the hospitality field such as by writing restaurant reviews.

Often you have to go to the site and perform some tasks (for example sit down and order a meal). Later when you return you fill out a survey (did the waiter say hello, that sort of thing) as well as a quick write up.

Payment often includes the cost of the meal AND a set wage per project (varies but could easily be \$25-\$50 and potentially more). It's great if it is a place you are already interested in going to, like a restaurant, since the budgets for meals can be pretty high.

The only catch is that with many of the companies you have to be at least 24.
